

# Communicators for Christ

## Young Communicators for Christ Prep Checklist

The Communicators for Christ conference is a world-class training event designed to engage and equip your young student. You can help them be ready to fully engage and use their new learning right away.

### Plan to engage

- Create their own space for joining the conference. (Helpful hint: find a space free of distractions so it's easier to focus on their device)
- Help them practice using their device.
- Download and print the emotes on the CFC website. Anticipate something fun!
- Download and print the Young Communicators for Christ activity sheets.

### Anticipate their needs

- Have snacks and meals easy to access during breaks.
- Keep tactile tools nearby (stress balls, playdough) so their hands can discreetly help their minds engage.
- Headsets allow both you and your student to be closer together.

### Share the fun

- Let them create a story with Legos or other toys and tell someone!
- Teach the Beginning Public Speaking chant to their stuffed animals.
- Call a grandparent or neighbor to share their favorite activity at CFC.
